S.R. 3007 – Appleton Road
All-Way Stop Request

Mr. John Auerbach, Chairman
Franklin Township Board of Supervisors
P.O. Box 118 - 20 Municipal Lane
Kemblesville, PA 19347

Dear Mr. Auerbach:

This is in response to correspondence that you submitted to PennDOT requesting approval to install an all-way stop at the intersection of Appleton and Strickersville Roads.

Due to the increased foot traffic and the sight distance concerns that are present, depending on where pedestrians are crossing Appleton Road, and also taking into consideration the increased farming activities in the area, the department will approve an all-way stop condition at the intersection of Appleton and Strickersville Roads.

The department will install STOP Signs on Appleton Road, along with STOP AHEAD Signs in advance of the intersection. Below the STOP Signs, we will install ALL-WAY Plaques to indicate that all approaches are required to stop. These signs will also be installed below the existing stop signs on Strickersville Road.

Enclosed for your reference and the township's files, is a copy of the THROUGH HIGHWAY MODIFICATION PERMIT approving the all-way stop intersection. If you have any questions, please contact Mr. Donald Centofante, Traffic Studies Supervisor, at 610.205.6596.

Very truly yours,

Ashwin B. Patel, P.E.
District Traffic Engineer
